

Progress Software Brings Its RAG-as-a-Service Platform to AWS Marketplace

November 19, 2025

Progress® Agentic RAG platform now available in AWS Marketplace, empowering organizations of all sizes with trustworthy, no-code generative AI for unstructured data

BURLINGTON, Mass., Nov. 19, 2025 (GLOBE NEWSWIRE) -- [Progress Software](#) (Nasdaq: PRGS), the trusted provider of AI-powered digital experience and infrastructure software, today announced its SaaS Retrieval-Augmented Generation (RAG) platform, [Progress® Agentic RAG](#), is now available in AWS Marketplace, a digital catalog that helps customers find, buy, deploy and manage software, data products and professional services from thousands of vendors. This listing makes it easier than ever for organizations to discover, purchase and deploy the platform directly within their AWS environments.

Progress Agentic RAG is designed to be the easiest-to-use, SaaS-based RAG platform for transforming unstructured data into actionable intelligence using trustworthy generative AI (GenAI) and AI agents. AWS customers can now have access to Progress Agentic RAG directly within [AWS Marketplace](#), and also use Bedrock models, enabling them to streamline the purchase and management of the platform.

"Bringing Progress Agentic RAG to AWS Marketplace allows us to simplify access to advanced AI for our customers," said John Ainsworth, EVP and General Manager, Application and Data Platform, Progress Software. "As the pace of innovation accelerates, we're focused on removing barriers so organizations can adopt and scale transformative AI solutions with confidence."

The platform enables teams of all sizes to extract fast, accurate and verifiable insights from unstructured data—without writing a single line of code. Its no-code AI agents support multilingual data processing, making it ideal for global organizations seeking to enhance productivity and decision-making.
