Media Alert: Progress Software's CTO Dr. John Bates and IDC's Maureen Fleming to Present How Business Leaders Can Move Faster in Today's Volatile Economy

BEDFORD, MA, Apr 21, 2010 (MARKETWIRE via COMTEX News Network) -- Progress Software Corporation (NASDAQ: PRGS), leading software provider that enables enterprises to be operationally responsive, today announced that Maureen Fleming, program director of IDC's business process management and middleware research services, and Dr. John Bates, CTO, Progress Software, will host a webinar on "Operationally Responsive Business - Your Business Moves Faster When You're at the Controls" on Thursday, April 22nd at 11 AM (ET). During this information-rich, one-hour webinar, Fleming and Bates will discuss the software solutions that helps management know more about changes in the conditions affecting their business, sooner, and provides them with the means to act on them.

- When: Thursday, April 22 at 11 AM ET
- Where: To register: <http://tinyurl.com/Progress-Webinar>
- Topics: Explore factors driving the emergence of business navigation systems and how they improve operational responsiveness to:
 - Make the Invisible Visible - Achieve comprehensive visibility across your business' operations
 - Achieve Actionable Insight - Sense-and-respond to opportunities and threats before it's too late
 - Make Course Corrections - Continuously apply improvements to your business processes in real time
 - Reduce Your Time-to-Value - Learn how companies like yours are applying solution accelerators to get started today
- Why: Change happens. And when it does, you need to respond to threats and opportunities instantly to minimize costs and maximize revenue. Responsiveness = Profitability. But how can you respond if you're not in control?
- Who: Speakers include Maureen Fleming, program director of IDC's business process management and middleware research services and Dr. John Bates, CTO, Progress Software.
