Progress Software to Host Second of a Three Part SOA Management Webinar Series

Actional Product Evangelist David Bressler to discuss 1+1=3: Marrying Best-of-Breed Tools for Business Process Governance

BEDFORD, Mass.--(BUSINESS WIRE)--April 28, 2008--Progress Software Corporation (NASDAQ: PRGS), a leading provider of application infrastructure software to develop, deploy, integrate and manage business applications, has announced that Progress Software will host a three part SOA Management webinar series. The second session, hosted by Progress Software's David Bressler, Actional product evangelist and featuring Lombardi Software's Marc Smith, director of product marketing, will be held on Tuesday, April 29, at 11:00 am EST and is entitled "1+1=3: Marrying Best-of-Breed Tools for Business Process Governance."

- When: Tuesday, April 29, 2008 at 11:00am EST
- Where: https://progress.webex.com/progress/onstage/ g.php?t=a&d=715850763&SouceId=PR (Due to its length, this URL may need to be copied/pasted into your Internet browser's address field. Remove the extra space if one exists.)
- What: Communication is the basis of any successful relationship, including that between business people and technologists. Bringing together BPM and SOA Governance enables business drivers to be translated quickly to SOA implementation, with full accountability, lower cost of ownership, and business-level SOA optimization.
- Why: Studies show that Service Oriented Architecture (SOA) is used in more than 50% of new mission-critical applications and business processes and by 2010 this level will increase to 80%. With this rate of proliferation throughout the enterprise and the underlying importance of service reliability to these applications, businesses are now including business process governance as a top priority.

About Progress Software Corporation
