Progress Rollbase Rapid Application Development Solution Now Available in Amazon Web Services Marketplace

BEDFORD, Mass.--(BUSINESS WIRE)-- [Progress](#) (NASDAQ: PRGS) today announced that Progress® Rollbase®, the rapid application development core of the [Progress Pacific™](#) platform as a service (PaaS), is now available through the [Amazon Web Services \(AWS\) Marketplace](#). The AWS Marketplace is an online store that helps customers find, buy, and immediately start using software and services to build products and run their businesses.

Using the Progress Rollbase solution, users will be able to develop powerful web and mobile apps quickly using the drag and drop, point and click capabilities. Customers can instantly deploy Progress Rollbase as an 'Amazon Machine Image' (AMI), saving time and cost of infrastructure management.

Customers with an AWS account can now create their own instance of the Rollbase solution and use it to develop and deploy business apps to their customers quickly. This will allow new and existing AWS customers to maintain a single billing relationship with AWS while taking advantage of building integrated, model-driven apps with the Progress Rollbase product. New customers will be able to choose AWS as their service provider for simplicity and speed of acquisition.

The Progress Pacific platform provides flexible deployment options for secure, scalable, multi-tenant applications to meet the needs of a dynamic business environment in cloud, on-premise, via mobile or hybrid infrastructures. The Rollbase solution allows users to write once and deploy apps on any platform, in any environment, to any data source.

Try Progress Rollbase Free through AWS

A free 14-day trial of the Progress Rollbase solution is available through AWS Marketplace. Try it now, [here](#).

Executive Quotes:

Michael Benedict, vice president and general manager, Pacific and OpenEdge at Progress, said, "We are pleased to make it even easier for our customers to take advantage of the benefits of leading Progress Rollbase capabilities through AWS Marketplace. As a partner of the Amazon Technology Alliance, Progress is pleased to provide an opportunity for Pacific users to take advantage of AWS's cloud services."
