Progress Software's Dr. Larry Harris to Explain How Organization Can Make Business Intelligence Pervasive During Webcast

Bedford, Ma – November 24, 2008 – Progress Software Corporation (NASDAQ: PRGS), a provider of leading application infrastructure software to develop, deploy, integrate and manage business applications today announced that Dr. Larry Harris, vice president and general manager of the Progress Software EasyAsk division will host a webcast on December 2nd on "Making BI Pervasive Using EasyAsk".

- | When: Tuesday, December 2nd at 2:00 p.m. EDT
- | Where: To register for the webcast visit: <https://progress.webex.com/progress/onstage/g.php?t=a&d=716707700>.
- | What: During this webcast, Dr. Harris will explain how organizations can make Business Intelligence more pervasive. The webcast will also feature a demonstration of the Progress® EasyAsk® for BI solution to illustrate how Progress EasyAsk solutions allow all employees within an organization to query, analyze and share data.
- | Why: It is a challenge for organizations to make BI pervasive. Business users need to have the ability tap into data to get answers on demand. But for most, this is achieved by requesting information from an analyst or IT.

Dr. Harris is internationally recognized as an expert computerized natural language and database systems. Currently, he is responsible for the worldwide business strategy and operations for the EasyAsk division of Progress Software. In addition, Dr. Harris is the creator of the EasyAsk technology.

For more information on EasyAsk, go to www.easyask.com or email info@easyask.com. EasyAsk is a Division of Progress Software.
